- Assist in District equipment maintenance

Overview

Based in Riverton, WY, and centrally located in Fremont County the choice of outdoor adventures are endless. The region is near millions of acres of National Forests, BLM (public) lands, and State Parks that are right outside your back door! We are searching for a team member that excels in communication, enjoys working in a team environment, and understands the negative impacts that invasive species have on Wyoming's ecological and economical resources.

This position requires the ability to operate vehicles equipped with large loads and advanced spray systems. All-terrain vehicles, such as side-by-sides, are also used regularly. The position will also require the use of a backpack sprayer weighing between 20 and 40 pounds. The successful applicant will need to be physically capable of working each day with the seasonal crew while fostering a positive, team-like atmosphere that maintains good employee morale and a productive work ethic. Strong organizational and communication skills are a must.

Minimum qualification: A.S degree or 3 years of relevant work experience.

Preferred qualifications: B.S. degree in a natural resource, agriculture, or related field, as well as weed management experience. Or 3 – 5 years of relevant work experience in natural resource, agriculture, or related field. Possession of a commercial driver's license is preferred.

Applications and a full job description can be found at www.fcwp.org.
